

# TAPPED RAIL ISSUE

- 1) Please define the type of tapped rail that your customer is using:
  - If the rack is in Type A, please refer to point 2)
  - If the rack is in Type B, please refer to point 3)
  - If the rack is in Type C, please refer to point 4)

Type A

Type B

Type C with extra pole

# Tapped Rail

2) Customer can apply the nut  to tighten the screws on our one-man installation mounting brackets as shown below

A) For LMK1N / LMK1B / LMK1D Models

B) For LMK1W / LMK1L Models

3) For LMK1N / LMK1B / LMK1D series, customer can exchange the one-man installation brackets to the 13" mounting brackets (13MB), then it'll fit in Type B tapped rail rack

For LMK1W / LMK1L series, there is 'No' solution at this point (Please refer to point 4 below)

4) If for LMK1W & LMK1L series, due to the size of the 19" W & 20" LCD panel, there is 'No' solution for LMK1W & LMK1L series LCD keyboard drawers to mount on Type C tapped rail rack at this point. Customer may need to consider upgrading to LMK1N / LMK1B / LMK1D series instead
